"Let's Plant Bulbs!"

There is nothing spectacular about this little list. It is a simple record of many bulbs—when they should be buried underground, and when the bloom will first come to repay you.

But there is much romance hidden in these pages, as in the bulbs themselves. Many of these bulbs you know; you need not be told of the beauty they have brought. Others may be new to you and your garden, yet old to the world, with flowers unique in form, or rich in color, bearing fragrance from a distant land. All of them you will want.

The interesting thing now is to decide which . . .
